

## **Sample Learning Objectives and Suggested Outcomes**

### **Panel Discussion led by NCPG Team Member**

1. Process the presentations, data, requests and offers from the prior sessions – from the unique perspectives of C-Suite leaders and National Community Partnership for Donation and Transplant Growth (NCPG) Team Member
  - a. What are your main insights?
  - b. What surprised you?
  - c. What excited you?
  
2. Explore potential actions and next steps by C-Suite leaders and NCPG Team Member
  - a. What are your thoughts on the distinction made about being a “Transplant Hospital” and a “Hospital that does Transplants?”
  - b. What current or already planned actions will you continue or further buttress because of what you learned here today?
  - c. What new or different actions might you take, based on what happened here today?
  - d. Consider turning to the audience of participating OPO leaders and getting a sense of their interest and potential actions to host similar sessions
  - e. Would participating C-suite leaders be willing to join with other OPO hosts and the NCPG Team in future events of this type in MO, FL, MN, CA, WA, TX and other areas?
  
3. To the extent possible, secure commitments for action
  - a. Are any of you prepared to make any initial public commitments to explore growth opportunities back at your respective institutions – with your Board, with your transplant program leaders, with others?
  - b. Going one click further... are any of you prepared to make any initial public commitments for sustained or expanded growth in one or more transplant areas (liver, heart, lung, kidney) at this point time?
  
4. Time permitting, gain C-Suite insight and recommendations about how to improve on this type of meeting going forward
  - a. What would you advise the organizers to do more of, better or differently?
